4. Final Bids Review and Evaluation

On August 13, 2025 the Purchaser reviewed the completeness of the Final Bids and established that Bid submitted by Westinghouse Electric Company fully complies with NEK's requirements and is admissible.

Regarding Nucleonova's Bid, it has been observed that the Bidder explicitly states in their offer that they do not plan to perform qualification in accordance with IEEE 323 as required by point G13, which constitutes a deviation from the technical specifications. Furthermore, in Section 7 – OUTSOURCING, the scope of work to be performed by subcontractors is not clearly defined. Since it cannot be confirmed that the Bid meets NEK's technical requirements, the Bid is not technically acceptable and therefore inadmissible.

Purchaser therefore concluded that the Bid from Westinghouse Electric Company is the favorable one. The Bid price converted into EUR on the day of the Bids opening, using the official Exchange Rate of the Bank of Slovenia, is **EUR 124.127,23.**

5. Bid completeness

In accordance with Article 89, paragraph 1, point 2 of ZJN-3, Purchaser established that Westinghouse Electric Company Bid for the "Supply of control switches as part of the replacement of secondary equipment on the 6.3 kV busbars (MD1, MD2)" is admissible:

- it was submitted on time (by the expiration of the deadline for Bid submittal to the Purchaser)

- it fulfills all the conditions/requests specified in Technical and Quality Requirements and other Bidding Documents
- it was submitted by the Bidder for whom there are no grounds for exclusion and fulfills the conditions for further participation in the bidding process
- its price does not exceed the Purchaser's funds available for the purchase
- it was not evaluated by the Purchaser as the Bid with unusually low Unit and Total Price
- it shows no evidence of unpermitted settlement with other potential Bidders or corruption

Based on the above said the Contract for **"Supply of control switches as part of the replacement of secondary equipment on the 6.3 kV busbars (MD1, MD2)"** has been awarded to the Bidder **WESTINGHOSE ELECTRIC Company, LLC., 1000 Westinghouse Drive, New Stanton, PA 15672, USA.**
