

The architectural floor plan illustrates a specialized medical facility, specifically a dialysis unit. The layout includes two identical treatment rooms, each equipped with a dialyzer (dializni aparat) and a mobile dialysis cart (obpostelna mizica mobilna). Adjacent to these rooms are storage spaces (skladišče) and a central area containing a sink (umivalnik), a mirror (ogledalo), and a clock (uraz). Technical details such as wall thicknesses (e.g., 1.4/1.2cm), door heights (e.g., h=2.1m), and various dimensions (e.g., 3.3x1.60m, 8.2x1.2m) are provided throughout the drawing. A north arrow (R) and a scale bar (0-60) are also present.
