1. Reference update needed for the Cooperative Awareness Service / CAM standard

The documents in this release refer to “**ETSI TS 103 900 V2.1.1 (2023-11)**” when referencing the Cooperative Awareness Service / CAM standard. This specific Release 2 version of the standard contains an error in its ASN.1 definition of the *BasicVehicleContainerLowFrequency*, which makes this definition **non-backwards compatible** with the previously used Release 1 version (ETSI EN 302 637-2 V1.4.1 (2019-01)), which was not intended. **The error was corrected by ETSI in the next version ETSI TS 103 900 V2.2.1 (2025-02)** of the Cooperative Awareness Service / CAM standard.

C-ROADS would therefore like to clarify that **any reference** to the incorrect version “**ETSI TS 103 900 V2.1.1 (2023-11)**” of the Cooperative Awareness Service / CAM standard in these release documents **shall be ignored and replaced** with the updated version “**ETSI TS 103 900 V2.2.1 (2025-02)**” for all implementations based on this C-ROADS release.
