Nuklearna elektrarna Krško, d.o.o.
Vrbina 12, 8270 Krško
Slovenija

Krško, March 5, 2026

In pursuance of Article 90 of the Public Procurement Act (ZJN-3, Official Gazette of the Republic of Slovenia No. 91/15 with all amendments) Nuklearna elektrarna Krško, d.o.o., Vrbina 12, 8270 Krško (hereinafter: Purchaser), represented by Gorazd Pfeifer, President of the Management Board, and Saša Medaković, Member of the Management Board, adopts the following

DECISION ON CONTRACT AWARD

for

»Supply & Replacement of Two Emergency DG Units Electrical Generators and (optional) Refurbishment of One Emergency DG Unit Electrical Generator /

Dobava in zamenjava električnih generatorjev DG1 in DG2 in (opcijsko) obnova enega električnega generatorja EDG«

The Contract for **»Supply & Replacement of Two Emergency DG Units Electrical Generators»** has been awarded to the Bidder:

Engine Systems Inc., 175 Freight Road, Rocky Mount, NC 27804

Explanatory Note

The Purchaser has implemented the Public Bidding Negotiation Procedure with prior notification for **»Supply & Replacement of Two Emergency DG Units Electrical Generators and (optional) Refurbishment of One Emergency DG Unit Electrical Generator»** in accordance with Art. 45 of the Slovenian Public Procurement Act **»ZJN-3»**.

The tender No. 206/25-8251817 was published on October 3, 2025 on the Slovenian Public Procurement Portal under No JN007780/2025-EUe17/01 and on the Tenders Electronic Daily under No. 649514-2025.

By the extended bidding due date December 19, 2025 at 14:00 CET the following Bidders submitted the Bid on time with the following basic elements:

Order of Bids Receipt	Name and address of the Bidder	Date and hour of submittal	Curr.	Total value without VAT
1	Ansaldo Nucleare S.p.A., Ansaldo Nucleare Spa, Via Nicola Lorenzi 8, 16152 Genova Italy (hereinafter: ANSALDO)	18 December 2025 06:00 PM UTC +01:00	EUR	17.174.209,00
2	Engine Systems, Inc, Engine Systems Inc., 175 Freight Road, Rocky Mount, NC 27804 (hereinafter: ESI)	18 December 2025 12:11 AM UTC +01:00	USD	18.049.637,00
3	Westinghouse Electric Germany, GmbH., Westinghouse Electric Germany, GmbH., Dudenstrasse 6, 68167 Mannheim, Germany (hereinafter: WEG)	19 December 2025 09:50 AM UTC +01:00	EUR	14.460.294,00

The Purchaser reviewed the completeness of the received Bids and decided to request submittal of missing documents and clarifications from ANSALDO and WEG to verify compliance with the technical and commercial requirements of NEK Bidding documentation and thereby fulfillment of Conditions for the Bid acceptance. Both, ANSALDO and WEG submitted the requested documents and clarifications in due time. The Purchaser established that regarding NEK Bidding documentation 206/25-8251817 I Bids, from ANSALDO, ESI and WEG, all are compliant with the Conditions for Bid acceptance and all three Bidders were invited to negotiate. Bidders were sent the draft revised technical specification SP-E3050 r1, draft Attachment 12 to TS SP-E3050 r1, as well as the revised draft contract on 16 January 2026 to prepare for the negotiations.

Negotiations took place at the NEK site with ESI on January 20, 2026, WEG on January 23, 2026, and ANSALDO on January 27, 2026. The bidders were informed that the purchaser had decided not to exercise the option to refurbish one EDG in accordance with TS SP-E5031. As a result, the optional scope was removed from this procurement and was not part of the negotiations. During the negotiation meetings, the final version of the contract and revision 1 of the Technical Specification SP-E3050 were negotiated.

On January 30, 2026, the Invitation for the Final Bid submittal, along with required attachments was sent to all three Bidders. By the extended final bidding due date March 3, 2026, all three Bidders submitted their final Bids with the following basic elements:

Order of Bids Receipt	Bidder:	Date and hour of submittal	Curr.	Total value without VAT
1	Westinghouse Electric Germany, GmbH., Westinghouse Electric Germany, GmbH., Dudenstrasse 6, 68167 Mannheim, Germany	26 February 2026 11:24 PM UTC +01:00	EUR	8.927.443,00
2	Ansaldo Nucleare S.p.A., Ansaldo Nucleare Spa, Via Nicola Lorenzi 8, 16152 Genova Italy	02 March 2026 03:30 PM UTC +01:00	EUR	9.082.341,00
3	Engine Systems, Inc, Engine Systems Inc., 175 Freight Road, Rocky Mount, NC 27804, USA	02 March 2026 11:10 PM UTC +01:00	EUR	7.396.479,00

The Purchaser reviewed the completeness of the Final Bids. All three Final Bids were found to contain all integral parts as requested. It was determined that the bid submitted by the bidder ESI contained a calculation error. Specifically, in the form Attachment no. 1 (Final Bid Form), the "TOTAL" amount shown in 2. Price Breakdown table was €7.396.479,00, which did not correspond to the correct sum of items 1–6. The correct total of items 1–6 is €7.476.867,00. Item 2 was not included in the total sum. The amount stated as "TOTAL Fixed and Firm Price" must equal the sum of items 1–6, i.e. €7,476,867.00. Due to the above, on 4 March 2026, a request for consent to correct this calculation error was sent to ESI via Cloud Messages. The bidder, ESI, provided its consent to correct the calculation error on the same day.

Therefore, following the correction of the calculation error, the Final Bids received are:

Order of Bids Receipt	Bidder:	Curr.	Total value without VAT
1	Westinghouse Electric Germany, GmbH., Westinghouse Electric Germany, GmbH., Dudenstrasse 6, 68167 Mannheim, Germany	EUR	8.927.443,00
2	Ansaldo Nucleare S.p.A., Ansaldo Nucleare Spa, Via Nicola Lorenzi 8, 16152 Genova Italy	EUR	9.082.341,00
3	Engine Systems, Inc, Engine Systems Inc., 175 Freight Road, Rocky Mount, NC 27804, USA	EUR	7.476.867,00

On March 5, 2026, after reviewing the received Final Bids, it was confirmed that all submissions meet the Purchaser's needs and requirements outlined in the technical specifications and procurement documents. The bids from ANSALDO, ESI, and WEG are admissible.

The Purchaser carried out an evaluation against the criteria as set out in the Bidding documentation:

Rank:	Bidder	Final Bid Price	a) Final Bid Price - Score - max.60%	b) Availability of OEM Documentation - Score - max.20%	c) Warranty period - Score - max.20%	Total Score - max 100%
1.	ESI	7.476.867,00 €	60,00	20,00	20,00	100,00
2.	WEG	8.927.443,00 €	50,25	15,00	20,00	85,25
3.	ANSALDO	9.082.341,00 €	49,39	15,00	20,00	84,39

The Purchaser awarded 5% under criterion b) to all three bidders for demonstrating possession of »OEM manufacturing drawings«, »Original quality assurance records (including material certificates)«, and »Original certificates of compliance and safety classification«. Consequently, WEG and ANSALDO each received a total of 15%, while ESI received an additional 5% for demonstrating possession of »Original Factory Acceptance Test (FAT) reports«, bringing its total to 20%. Under criterion c), the Purchaser awarded 20% to all three bidders, as all of them offered a 10-year warranty period.

Considering the above said, the Contract for **»Supply & Replacement of Two Emergency DG Units Electrical Generators«** has been awarded to **Engine Systems Inc., 175 Freight Road, Rocky Mount, NC 27804, USA**, as the most favorable and qualified Bidder who is in a position to perform the subject service and delivery under the terms and conditions and within the period of time as required by Purchaser.

The purchaser's decision is thus reasoned entirely.

Legal instruction

The request for review/revision shall be submitted by portal eRevizija within eight (8) working days from the receipt of the decision on award or elimination of public procurement in compliance with Legal Protection in Public Procurement Procedures Act (ZPVPJN, Official Gazette of the Republic of Slovenia, No. 43/2011 with all amendments). The applicant must submit with the request for review the bank certificate for the payment of tax in the amount of EUR 25.000,00 to the account of the Ministry of Finance No: 01100-1000358802, reference 11 16110-7111290-00778025.
