The drawing illustrates a road reconstruction project with various engineering details. Key elements include:

- AB greda (AB Girder):** A main structural element running horizontally across the top of the plan.
- Zbirni jašek (Collection Culvert):** A culvert structure shown in cross-section, with a depth of 1.0m.
- Sanacija vozišča (Road Surface Reconstruction):** Indicated by a blue hatched pattern.
- Odvodnjevanje (Drainage):** Shown as a cyan line with arrows indicating flow direction.
- JVO (Roadside Ditch):** Represented by a black line.
- Robniki vozišča (Roadside Ditch):** Indicated by a cross-hatched pattern.
- Stationing:** Numerical values along the road axis, such as 0+0.00, 0+8.00, 0+18.00, 0+28.00, 0+38.00, 0+48.00, and 0+66.06.
- Elevation Points:** Numerous numerical values (e.g., 416.53, 417.32, 418.03) indicating ground and construction elevations.
- Structural Details:** Annotations for materials and dimensions, such as "AB greda 40x50 cm", "zabiti HEA 160: e = 0.5 m", and "dolžina AB grede = 47.04 m".
- Other Features:** Labels for "novi robniki" (new roadside ditches), "pogreznjen robnik" (recessed curb), "betonski cevni prepus" (concrete pipe crossing), and "asfaltna koritnica" (asphalt ditch).
