Odgovor na vprašanje:

VPRAŠANJE:

Hello, "O." has experience and capabilities in Video Surveillance Systems (VSS) and Video Management Systems (VMS), including solution implementation, integration, and ongoing support. As an international company, we are evaluating potential participation options for this opportunity. We would appreciate any guidance on whether foreign suppliers can participate directly or through collaboration with a local Slovenian partner, and any other relevant requirements we should be aware of. We would be grateful for your advice and look forward to exploring how "O." may contribute to this initiative. Thank you for your time and consideration. Thanks, "R. K."
